PetroMonitor

Every litre, every shift, every rupee. In one place.

PetroMonitor is petrol pump management software made for Indian fuel stations. It keeps your nozzles, tanks, staff, credit customers and accounts in step, on the web and on your phone.

- Shift and nozzle sales
- Tank stock and dips
- Density and quality
- Credit customers
- GST reports
- TallyPrime export

For IndianOil, BPCL, HPCL, Nayara, Jio-bp, Shell and CNG outlets

WHY PETROMONITOR

Your pump runs 24 hours. Your books should keep up.

Registers, calculators and month-end guesswork hide losses. PetroMonitor gives every shift the same simple routine and gives you the numbers the same day, not at month end.

Nothing to install
Runs on a secure cloud server and opens in any browser: office PC, laptop, tablet or phone.

Safe, backed-up data
Daily backups and encrypted connections. A broken PC no longer means lost books.

Simple for staff
Managers and attendants get their own logins and see only what their role needs.

Live in one day
We set up your tanks, dip charts, nozzles, rates and staff with you, and train your team.

A DAY AT YOUR PUMP

From the first dip to the last rupee

6:00 AM
Morning dip
Dips for each tank, converted to litres from the chart.

8:00 AM
Shift opens
Opening meter readings carry forward. Attendants assigned to nozzles.

11:30 AM
Tanker arrives
Invoice, density and temperature recorded. Stock goes up.

8:00 PM
Shift handover
Closing readings and collections settle each attendant.

9:00 PM
You check your phone
Sales, collections, shortages and variation, from anywhere.

THE DETAILS MATTER

Built for fuel stations, not generic billing

Rate board customers trust
Live rates, tank stock and the latest density on a TV at the forecourt.

Fuel quality on record
Temperature, observed density and density at 15°C for every tanker and check.

Closed days stay closed
Days lock on closing. Reopening needs the owner's permission and leaves a trail.

Dips in litres, instantly
Upload each tank's calibration chart once; every dip converts on its own.

Petrol, diesel, premium, CNG
Any number of tanks, dispensers and nozzles, including kg-based CNG.

Support in Hindi and English
Call or WhatsApp the people who build the software.

FEATURES

Everything your station needs, in one system

Everything shares one set of data, so a reading entered at the forecourt shows up in the office and on your phone straight away.

Forecourt and cash desk

- Day book with shift-wise meter readings
- Testing litres and pump-test entries
- Cash, card, UPI and credit collection
- Denomination count and short/excess per attendant

Tanks, tankers and quality

- Tank dips with calibration (dip) charts
- Tanker receipts with invoice and decantation details
- Density and temperature checks at unloading
- Stock ledger and daily variation report

Fleet and credit accounts

- Customer and vehicle master
- Credit sales against vehicle number
- Monthly bills per company
- Outstanding, ageing and payment receipts

Books and ledgers

- Sales and purchase invoices
- Expenses and bank deposits
- Cash book and bank book
- Day book, ledger and trial balance

Tax compliance

- GST on lubricants and other items
- VAT on fuel as per your state
- GSTR-1 and GSTR-3B ready summaries
- HSN-wise sales report

Your team

- Employee master and staff logins
- Attendance by shift
- Advances and salary deductions
- Monthly salary sheet

Reports you can print

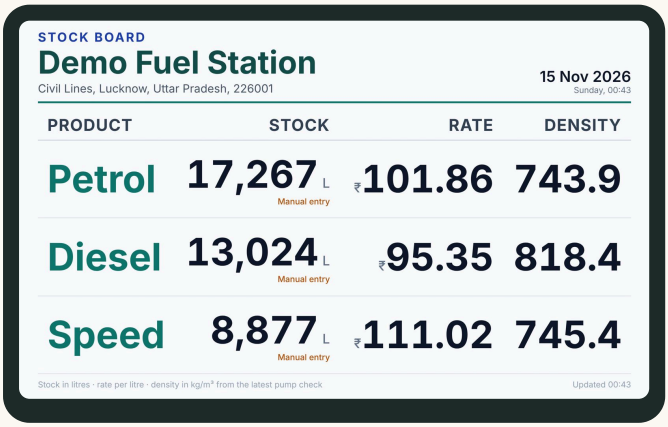

- Shift report and day report as PDF
- Product-wise and nozzle-wise sales
- Stock variation by tank and product
- Month-wise sales trends

Phone, TV and WhatsApp

- Owner, manager and attendant apps
- Live stock board for a TV at the pump
- SMS and WhatsApp alerts
- Customer statements on WhatsApp

TallyPrime link

- Ledger mapping done once
- Export sales, purchases and receipts
- No double entry for your accountant
- Works with TallyPrime on your PC

LIVE DISPLAY BOARD

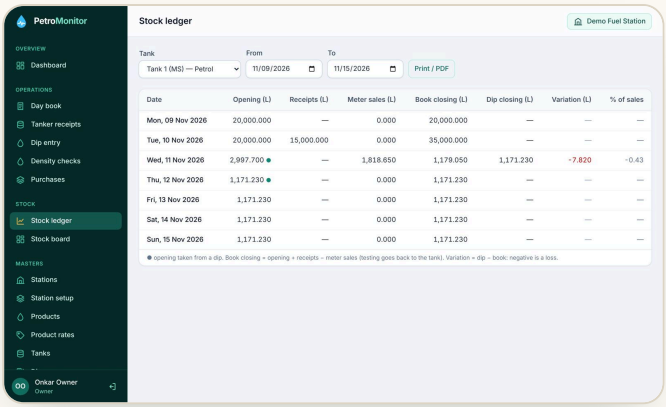

Show rates, stock and density on a TV

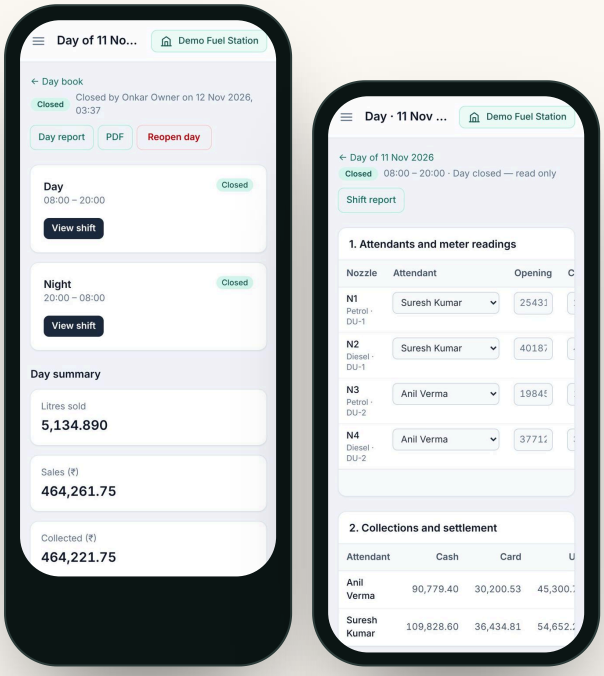

Open the board link on any smart TV or tablet at the forecourt. It refreshes on its own, needs no login, and can be switched off any time. Customers see you have nothing to hide.

FOR YOUR ACCOUNTANT

Clean numbers, no retyping

- Day-wise sales by product, exported for TallyPrime
- VAT on fuel and GST on lubricants kept apart
- GSTR-1 and GSTR-3B summaries, HSN-wise sales
- Stock ledger and daily variation for the oil company
- Shift and day reports, printable or as PDF

MOBILE

Your pump on your phone

PetroMonitor works in any phone browser today. Android and iPhone apps are on the way.

Owner
Sales, stock and cash

Manager
Shifts, dips, tankers

Forecourt staff
Readings and collections

Fleet customer
Fills, bills, payments
